Machine Learning Scikit-learn, Supervised Learning, Data Preprocessing	Tools Jupyter Notebook, GitHub	

PROJECTS

IPL Data Analysis Project

- Analyzed IPL match datasets using Python libraries such as Pandas and Matplotlib.
- Performed data cleaning, preprocessing, and exploratory data analysis (EDA).
- Generated insights on team performance, player statistics, win trends, and venue analysis.
- Created visual dashboards and charts for data interpretation.

AI News Summarizer Pro

- Developed an NLP-based application for automatic news summarization and multilingual translation.
- Utilized machine learning and natural language processing techniques for text processing.
- Built an interactive Streamlit interface for user-friendly data interaction.

INTERNSHIPS & WORKSHOP

Certificate of Completion for Internship on Artificial Intelligence & Machine Learning Successfully completed an internship focused on core concepts of Artificial Intelligence and Machine Learning, including data preprocessing, supervised learning, model evaluation, and practical implementation techniques.	29/07/2024 – 02/08/2024
Certificate of Completion for Workshop on Human Resources Management Participated in a workshop on Human Resource Management covering recruitment processes, employee engagement, communication skills, teamwork, and organizational management practices.	02/07/2024

SOFT SKILLS

- Problem-Solving
- Adaptability
